Watercombe Farm indigenous tree growers are based in Chartwell West/Fourways and carry over 30 varieties of South Africa's indigenous trees, trees are sold **wholesale to the public** in 100,200 and 400 litre sizes and are priced accordingly. Our trees are grown in a natural environment and a climate where they are exposed to winter frost and summer heat, ensuring hardy specimens. These trees are ideal for local bio-diversity and environmental re-habilitation. **We also offer a full delivery / planting and compost service.**
